Damnzal "Damnzal"

[\(Dead Famous Records \)](#)

UPC: 786984944928

Cat#: none

Genre: Rock/Punk

Damnzal prides itself in being a band of three hard playing girls and one very loud guy, spewing forth a heavy mash of new edge punk/metal tunes that fans of contemporary heavy music would enjoy. The band members came together in early 2003 and consists of Tania Pennisi on lead vocals (ex Ruby Doomday), Paula Condell on lead guitar (ex Velvet Hammer, Spine Of God), Vanessa Payne on bass guitar (ex Ruby Doomday) and Scott Danson on drums (ex Cyclone Tracy). Musically influences range from extreme to mellow...kind of! All of the Damnzal songs have been written by Paula, yet the band members bring in their own influences, helping to distinguish the Damnzal philosophy and style. The influences range from extreme, hardcore and melodic types of metal as well as seventies style punk. So the deal is to provide a total experience: a band that is visually and musically confronting.. not for the faint hearted!
